

A photograph of two dolphins leaping from the water. The dolphin in the foreground is in mid-air, its body arched and its mouth open. The second dolphin is visible behind it, also leaping. The water is a deep blue with white foam from the dolphins' jumps. The text 'WCMC' is overlaid in the top left corner.

WCMC

**AD1355 Senior Programme Officer -
Nature-based Solutions**
Application Pack

ABOUT WCMC

WCMC is a UK-based registered charity that operates in seamless collaboration with the UN Environment Programme World Conservation Monitoring Centre (UNEP-WCMC).

UNEP-WCMC is a specialist Centre on biodiversity, and nature's contributions to society and the economy. The Centre is confronting the global crisis facing nature through its unique position in ensuring science, knowledge and insights shape global and national policy, and by working with partners around the world to build capacity and create innovative solutions to environmental challenges. The Centre uses its position as a respected custodian of powerful and trusted environmental data to create positive impact for people and nature.

"We are in a make or break decade for nature with WCMC set to play a pivotal role in ensuring humanity finally begins to reverse the catastrophic loss of biodiversity globally."

Jonny Hughes, WCMC CEO

Thank you for your interest in the role of **Senior Programme Officer**

We are seeking a Senior Programme Officer (Ecosystem-based Adaptation) to join our Nature-based Solutions Team.

The successful applicant for this senior position will play a leading role in the work of the large and growing team focused on the Centre's Nature-based Solutions (NbS) Impact Area. This team (currently 22 people) is responsible for an ambitious portfolio of work on the role of nature in helping to address climate change and other societal challenges, which includes work on ecosystem-based adaptation to climate change (EbA), climate change mitigation and nature for health and well-being. You will be experienced and knowledgeable on EbA and have a strong understanding of the other two areas, as well as of how the three areas relate to each other and to biodiversity objectives. You will have a history of successful project management and technical oversight of the work of others, as well as proposal development.

This position will give you the opportunity to work with other senior staff in the team to oversee our technical work, lead on development and implementation of innovative projects and shape the future direction of UNEP-WCMC's work on nature-based solutions.

ABOUT THE TEAM

Our team works collaboratively to advance public and private sector use of nature-based solutions (NbS) to address sustainable development challenges, focusing particularly on climate change mitigation, ecosystem-based adaptation to climate change (EbA) and nature for health and well-being. We synthesise existing knowledge and experience to support wider understanding and appreciation of the multiple benefits that NbS can provide; recent examples include summarising evidence on the global potential of Nature-based solutions for climate change mitigation, a synthesis report on NbS for adaptation to support the Global Commission on Adaptation.

Another key focus is developing and enhancing access to tools and knowledge to support NbS implementation. This has included developing a navigator to help practitioners and others access tools that can support EbA planning and implementation, and providing support on monitoring and evaluation for EbA. We also support development of legal, planning and policy frameworks that enable effective and scaled up implementation of NbS. This includes shaping new approaches and provided support to countries on safeguards and spatial planning for REDD+, supporting countries and others on integrated spatial planning for climate and nature, work on enhancing private sector uptake of NbS for infrastructure resilience, and new work on providing coordinated access to data from the multiple disciplines that are needed to support a One Health approach.

We work as one organisation. So, while our projects, partnerships and collaborations form the basis of the Nature-based Solutions team's focal initiatives, they are delivered across the whole Centre.

ABOUT THE ROLE

Job Description

The person appointed will play a leading role in the work of the large and growing team focused on the Nature-based Solutions (NbS) Impact Area, which currently comprises 22 staff. The team is responsible for a varied range of work on the role of nature in helping to address climate change and other societal challenges, especially Ecosystem-based Adaptation (EbA), Mitigation and Nature for Health and Well-being. The new staff member will work with the other senior staff in the team to shape the future direction of our work in these areas, with a particular focus on EbA. This will include managing staff and workflows, leading on the development and implementation of major projects and representing the Centre to external audiences and partners.

Key Areas of Responsibility

- Lead and have technical input to the implementation of larger projects across the impact area and oversee management of smaller ones, coordinating the work of project teams that may span a range of disciplines and technical skills.
- Lead the development of new projects that support effective decision making on nature-based solutions and related policy on nature and climate, with particular emphasis on ecosystem-based adaptation, as well as its connections to climate change mitigation and nature for health and well-being.
- Work alongside a diverse range of colleagues, including experts on REDD+, adaptation, environmental and social safeguards, economics and spatial analysis.
- Manage individual staff and their workflows (e.g. through helping to identify tasks that can be reallocated/delegated between individuals), as well as their professional development.
- Contribute to peer review on project implementation and outputs for the NbS team and related work across the Centre.
- Work closely with the head of NbS and coordination team in determining the strategic direction of the NbS impact area, and helping to maintain an effective and financially viable team working on impactful, policy-relevant projects.
- Represent UNEP-WCMC to external audiences and partners, including at relevant international Convention meetings, conferences and workshops.

Other Duties

- Extend own knowledge of scientific and policy issues relevant to the work of the Programme
- Participate in WCMC planning and management processes.
- Undertake any other duties as may be required from time to time commensurate with the level of the post.

Person Specification

Qualifications/Education

Essential:

- Masters degree in biological sciences, geography, ecology, environmental sciences, economics, social sciences or similar.

Desirable:

- PhD in biological sciences, geography, ecology, environmental sciences, economics, social sciences or similar.

Experience

Essential:

- Experience of working at the science/policy interface in fields relevant to Nature-based Solutions (NbS).
- Knowledge and experience of issues and practice in using NbS to support climate change adaptation, especially ecosystem-based adaptation.
- Good understanding of the conceptual basis for NbS to address adaptation to climate change, climate change mitigation and/or people's health and well-being, how these relate to each other and to issues in biodiversity conservation.
- Experience of leading and managing the implementation of projects.
- Experience of developing policy-relevant project ideas and costed proposals.
- Experience of managing staff.

Desirable:

- Knowledge and experience of issues and practice in NbS for climate mitigation, or approaches for addressing health and well-being.
- Experience of developing good working relations with key decision makers at national and international level.
- Experience of leading the development of useful science-based information and materials for decision-makers.
- Experience of data analysis (spatial and statistical) to support decision making.
- Experience of working with key decision makers and technical staff supporting policy and decision making on issues that NbS can help to address.

Skills

- Strong skills in project management and team leadership.
- Strong communication skills (written and spoken) and willingness to make presentations to international audiences.
- Ability to build and maintain strong professional relationships, and to deal effectively with challenging situations.
- Good at participating in and managing teamwork and collaboration both within and outside the organisation.
- Able to prioritise and balance competing demands on time and to delegate as appropriate
- Good research skills.
- IT skills – ability to use word-processing, email, and spreadsheet software; sufficient understanding of the role and use of GIS and databases to manage the work of others.
- Fluency in written and spoken English, with fluency in another UN language highly desirable.

Type of Person Required

Intelligent, well organized team player, able to work under pressure and on multiple projects and to establish and maintain excellent relationships with partners. Good communication and negotiation skills.

OUR OFFER

Job Title: Senior Programme Officer

Team: Nature-based Solutions

Reporting to: HOP NbS Impact Area

Job Reference: AD1355

Start date: June 2022

Salary: GBP £38,000 to GBP £44,000 per annum, depending on skills and experience

Contract: Permanent, Full-time

Location: The post holder will be expected to reside in the UK. We have a flexible hybrid working policy in place, for further details, please email recruitment@unep-wcmc.org. We are usually able to offer visa sponsorship to the preferred applicant.

This is not a United Nations Post. This position is with the charity WCMC, working in collaboration with UNEP.

As a minimum we aim to match market rates for the conservation charity sector in Cambridge and invest a lot of effort to benchmark our salaries, ensuring that people are rewarded fairly for their role. To add to this, we offer some great benefits - here are the highlights:

- 12% non-contributory pension after 1-year of service (8% after three months).
- Annual cost of living increase and regular salary reviews.
- Good opportunities for progression and promotion around a fifth of staff gaining promotion annually.
- Flexible hybrid working policy which allows multiple combinations of home, office and remote working, including working from anywhere in the world for up to six weeks.
- Life assurance against death in service (4X annual salary).
- Company sick pay which increases with term of service.
- Generous annual holiday allowance of 25 days (FTE), increasing by one additional day each full calendar year worked up to 30 days.
- Scheme to buy or sell annual leave where staff can choose to 'buy' annual leave days or 'sell' unused leave.
- Generous maternity leave, shared parental leave and adoption leave policies that cover 18 weeks at 90% pay after a qualifying service period. Also four weeks paid paternity leave and one week paid grandparents leave.
- Unpaid sabbatical scheme which applies after at least 12 months continuous service with WCMC.
- Free parking at the Huntingdon Road office.
- Eye test costs covered and a contribution of £50 towards prescription glasses if your optician agrees that you need them for VDU use.
- Excellent training and development opportunities, designed for every career stage, with five days minimum training annually for every employee. This can be used flexibly for training courses, attending conferences, webinars or workshops, coaching and mentoring, shadowing or practicing skills or reading.
- Cycle to work Scheme which helps spread the cost of purchasing a new bike.
- Fantastic shared social space and kitchen facilities with free tea and fresh coffee.
- Employee assistance programme and bereavement line to offer help and advice to staff and their families on matters related to wellbeing, finances, relationships, family and more. This includes a number of free counselling sessions if they are needed.
- Brilliant social committee which organises regular fun events and social gatherings.
- Caring Staff Liaison Committee that listens and makes recommendations on continuously improving the working experience for staff.
- Focus on environmental sustainability kept in check by our Environment Committee.
- Free annual flu vaccine.
- Interest free study loans (subject to conditions).
- A diverse and inclusive workplace with over 40 nationalities represented on the staff.

Training

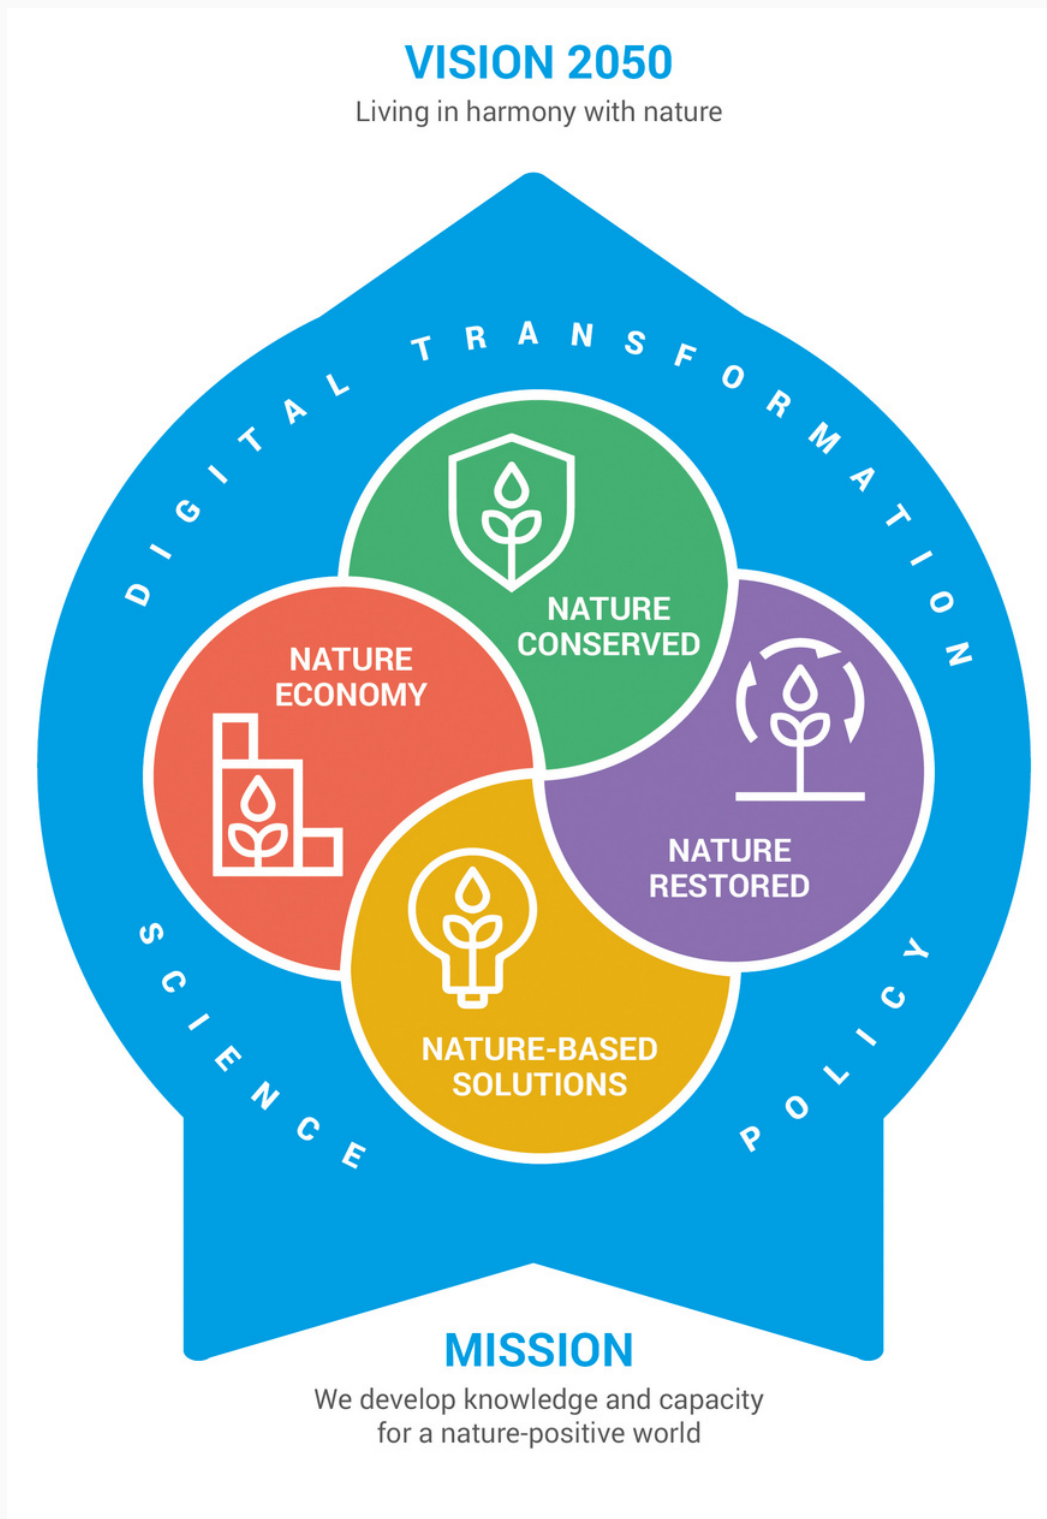

Our aim is to do our best for every person who works for us, so that they build their skills and knowledge over their career with us, and when they leave (some never do!) they are better placed to move onto the next stage of their career.

We have a comprehensive induction programme that spans the first 6 months including what's critical in the first week, first month, and then monthly afterwards.

- We encourage everyone to use 5 days for their own personal development each year;
- Standard training courses which include: management development; coaching culture; resilience; negotiation; pitching and closing a deal, for example.
- We also design our training and performance development reviews and organise bespoke training courses that meet the skill gaps in the organisation and fulfil the training needs of the people within it.
- Peer-to-peer learning from our community of experts, taking advantage of the breadth and depth of knowledge and experience across the organisation.
- Internal and external invited speakers, workshops and talks that anyone can join or initiate.

UNEP-WCMC Strategy

UNEP-WCMC delivers its strategy through four independent impact areas which are complemented by three cross cutting innovation areas.

The people

We have around 200 amazing people who make up our organisation. We are a really friendly bunch of professionals and do not think a single person has ever left the organisation without saying that it is the people that make the organisation fantastic and how much they will miss them when they leave. We truly do have world class scientists and professionals!

The culture

The WCMC culture is very supportive. There are lots of ups and downs in life, and we want to support our people through the difficult patches, so they can flourish again. We have a free employee assistance line that is available to all employees and their families and offers 6 remote counselling sessions and other advice services.

We have redesigned our kitchen and library to make a fantastic social space where you can have a quiet chat or a loud lunch with your colleagues! We have lots of outdoor space including a wildlife pond, which is a popular area for outdoor meetings and relaxation. We also have tea every Wednesday afternoon, with locally homemade cakes and catch up with everyone and everything that is going on at WCMC.

We are affiliated with Cambridge University, and have rooms in the David Attenborough Building that we can use when we wish. UNEP-WCMC is also a member of the Cambridge Conservation Initiative and we often collaborate with our CCI colleagues in our work.

WCMC attaches great importance to addressing safeguarding and ethical considerations in all activities carried out by its staff, including where partner organisations or individuals are part of the delivery of our work. This includes children and vulnerable adults in the community who may be vulnerable to abuse. WCMC acts with integrity, is transparent and expects applicants to share the same values.

Diversity

We really take our diversity seriously, as we operate globally and need to have the people perspectives within the organisation, to fully understand our clients and partners that we work with. Our aim following the introduction of the points based immigration system was to increase our diversity not only in our range of nationalities, but in all protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex).

WCMC has a sponsorship licence and always take the best candidate for the role from a whole range of applicants and offer sponsorship to those that require it. We have people that have worked for us for more than 30 years, and our fantastic internships often attract the best and brightest graduates.

HOW TO APPLY

If you are looking for a rewarding and motivating post, we want to hear from you.

Please complete our [application form](#) and send it together with your [2 page CV](#) and a [short covering letter](#) through this [link](#).

We screen candidates based on skills and experience and not their personal details.

Please do not include a photograph on your CV, and note that any applications which include a photograph may be automatically rejected.

Closing date: Monday 20th March
